

## CHICAGOGRAMS

- And this is spring weather.
- The Whales near had a chance to swim into the first game of the season last Saturday.
- Why wouldn't it be a good idea to raise goats right here in Chicago? They are so easy to get.
- Now the West Side will please sit up and take notice. Rajah Bresnahan and his crew of diamond stars are with us. Wednesday they will make the big splash.
- In a couple of months we will be saying, "How'd you like to be the ice-man?"
- If this sort of weather keeps up, about all we will be able to raise in our pet garden will be the duece.
- Thanks to the health department, it is a long lane that has no garbage can.
- Our idea of nothing to do: Watch a ball game on a day like today.
- Did you get caught too? One reader writes that he changed them last week and then nearly froze Sunday.
- Oxfords will be with us shortly.
